CiTRIX® + ALCHEMY TECH GROUP

A STRATEGIC PARTNERSHIP

Delivering the smartest workspace experience

Why Citrix for Alchemy

Our business is built on establishing trust-based relationships with our customers and technology partners. The Alchemy Contextual Workspace Team spends hundreds of hours researching, testing and benchmarking Digital Workspace and Application Delivery products against User Experience and Security standards, and the Citrix Workspace Platform is the clear leader because it offers:

High-definition User Experience
Trusted Security
Simplified Transition to the Cloud
Improved IT Efficiencies
Integrated Platform
Reduced IT costs

It is because of this trust that Alchemy Workspace experts have chosen Citrix as the leader in the Digital Workspace Platform space. The nature of the digital workspace is changing and Citrix continues to innovate and lead the change.

Why Alchemy for Citrix

Our Workspace Experts will help you achieve your Digital Workspace Project goals through our proven methodology. Whether it's Intelligent Workspace, Application and Desktop Virtualization, Secure Content Collaboration, Web Application Delivery and Security, Hybrid Multi-Cloud or SD-WAN, Alchemy can guide you from start to finish to ensure a smooth and successful implementation:

Assess – We gain a deep understanding of your business, processes and goals
Stabilize – Determine baseline configuration and settings
Standardize – Prepare both staff and technology to incorporate standard processes
Manage – Validation and preparation for production support
Innovate – Prepare to take your workspace experience to new heights
